Where Strategy
meets Execution

Structure · Scale · Sustainability

The Talent Strategy Firm

- Our team comprises Chartered Accountants (CA), Chartered Financial Analysts (CFA), MBAs in Human Resources & Marketing Management, Engineers, and allied professionals.
- We think on behalf of the client while screening candidates — giving us confidence to make decisions that protect your interests.
- Not a generalist resume-forwarding agency. We do not rely on keyword matching.
- Serving mid-to-large corporates across Accounts, Audit, Tax, and Compliance.

The Kurukshetra Mindset

Doing the right thing, even when it is difficult.

1

Ethical Anchoring

Operations guided by principles of duty, righteousness, and long-term reputation — never compromised for short-term placements.

2

The Client Promise

Absolute transparency, uncompromised confidentiality, and objective advisory in every engagement.

3

The Partnership Goal

Relationships built on trust and mutual victory rather than transactional success — a decade-long commitment.

Why Finance Recruitment Requires Specialists

The Generalist Problem

Typical recruiters scan for keywords without understanding technical nuance — leading to high volume but low quality shortlists that waste your time.

The PSP Solution

Practitioner-Level Screening. We test for technical competence and domain knowledge before a resume reaches your desk.

The Result

- Higher interview-to-select ratios
- Better candidate retention post-joining
- Candidates who can hit the ground running
- We act as an extension of your brand

03

Cultural Alignment

Assess motivation, values, and team fit to ensure long-term stability and performance.

04

Closure & Follow-up

Manage negotiations, counter-offer scenarios, and post-offer steps through onboarding.

Our comprehensive process ensures every candidate is thoroughly vetted across technical skills, cultural fit, and long-term potential before reaching your desk.
